■ Chemistry Jokes

That React with Laughter!

1. Why can't you trust atoms? Because they make up everything!
2. What did one ion say to another? I've got my ion you!
3. What do you do with a sick chemist? If you can't helium and you can't curium, you might as well barium!
4. Why do chemists like nitrates so much? Because they're cheaper than day rates!
5. What did the thermometer say to the graduated cylinder? You may have graduated, but I have more degrees!
6. What do you call an educated tube? A graduated cylinder!
7. Why are chemists great at solving problems? They have all the solutions!
8. What element is a girl's future best friend? Carbon! (Because diamonds are carbon!)
9. What's a chemist's favorite type of dog? A laboratory retriever!
10. What did the scientist say when he found two isotopes of helium? HeHe!
11. Never trust atoms—they make up literally everything!
12. Why did sodium and chlorine break up? There was a salt!
13. Why did the acid go to the gym? To become a buffer solution!
14. What do you get when you mix sulfur, tungsten, and silver? SWAG!
15. How did the chemist survive being poisoned with potassium? He made a quick escape with his friend sodium, and together they were OK!
16. Why are chemists so good at solving problems? Because they're always looking for solutions!
17. What's the chemical formula for coffee? CoFe2!
18. Why did the white bear dissolve in water? Because it was polar!
19. What did one titration say to the other? Let's meet at the endpoint!
20. Why can't you trust atoms in court? They make up everything, even the evidence!
21. What do you call iron blowing in the wind? Fe-breeze!
22. Why did oxygen go on a date with potassium? It went OK!

- 23.** What do you do with a dead chemist? Barium!
- 24.** Why do chemistry professors like to teach about ammonia? Because it's pretty basic stuff!
- 25.** What did the bartender say when oxygen, hydrogen, sulfur, sodium, and phosphorus walked into the bar? OH SNaP!
- 26.** What's sodium's favorite exercise? Na-masté!
- 27.** Why did the chemist sole and heel his shoes with silicone rubber? To reduce his carbon footprint!
- 28.** What do you call a benzene ring with iron atoms? A ferrous wheel!
- 29.** Why are noble gases so stuck up? They don't react to anything!
- 30.** What's the fastest way to find a missing electron? Put up positive signs!
- 31.** Why did the electron break up with the proton? Too much attraction!
- 32.** What do you call a wheel made of iron? A ferrous wheel!
- 33.** Why don't chemistry jokes ever work? They argon!
- 34.** What did the scientist say when he found out his experiment failed? That's sodium funny!
- 35.** Why did the chemistry book go to therapy? It had too many reactions!
- 36.** What do you get when you cross a joke with a periodic element? Punny-um!
- 37.** Why are atoms terrible liars? You can see right through their nucleus!
- 38.** What did the gold say to the pyrite? You're a fool!
- 39.** Why did the molecule go to school? To improve its bond!
- 40.** What's a chemist's favorite type of tree? A chemis-tree!

■ Physics Jokes

That Defy Gravity!

1. Why did the photon check no bags at the airport? Because it was traveling light!
2. What did the light say when it was turned on? I'm delighted!
3. Why can't you trust light particles? They're always up to something shady!
4. How fast does light travel? I don't know, but it gets here way too early in the morning!
5. Why is electricity the best student? It conducts itself properly!
6. What did Isaac Newton say when his apple fell on his head? That's gravity for you!
7. Why don't physicists like going to the beach? Because of all the extra waves!
8. How does the speed of light sound? Pretty bright!
9. What's Einstein's favorite time of year? Relatively speaking, it's autumn!
10. Why did Einstein refuse to wear socks? Because they gave him too much friction!
11. How do you organize a space party? You planet!
12. What did the physicist say when he wanted to fight? Let me atom!
13. How does a physicist exercise? By pumping ion!
14. What's a physicist's favorite food? Fission chips!
15. Why are quantum physicists bad at sports? They're always uncertain!
16. What did one quantum physicist say to the other? This conversation is getting pretty heavy!
17. Why did the magnet go to school? To attract new friends!
18. What's a light bulb's favorite type of story? An en-light-ening one!
19. Why was the battery arrested? It was charged with assault!
20. How do you cut electricity? With a power saw!
21. What do you call a spinning electron? A whirl-d particle!
22. Why did the photon refuse to check luggage? It was traveling light!
23. What's a physicist's favorite dance? The electric slide!

- 24.** Why don't physicists ever argue? They always find common ground!
- 25.** What did the force say to the mass? I'm attracted to you!
- 26.** Why was the physics book always worried? It had too many problems!
- 27.** What do you call a physicist who studies breakfast? A serial experimenter!
- 28.** Why did the wave go to therapy? It had too many highs and lows!
- 29.** What's a photon's favorite game? Light tag!
- 30.** Why don't electrons ever share? They're too negative!
- 31.** What did gravity say to the apple? You're falling for me!
- 32.** Why was the physics teacher a good musician? She understood frequency!
- 33.** What do you call a lazy photon? Light work!
- 34.** Why don't magnets ever get lonely? They're always attracted to others!
- 35.** What's Newton's favorite fruit? Fig-newtons!

■ Biology Jokes

That Are Cell-arious!

1. What did one cell say to his sister cell when she stepped on his toe? Mitosis! (My toe, sis!)
2. Why did the cell go to therapy? It had trouble with its cell-f esteem!
3. What do cells use to communicate? Cell phones, obviously!
4. Why don't cells ever win at poker? Because they're always splitting!
5. Why are fungi always invited to parties? Because they're such fun-guys!
6. How do trees access the internet? They log in!
7. What do you call a sleeping bull? A bulldozer!
8. Why don't trees use computers? They're afraid of logging off!
9. What did the DNA say to the other DNA? Do these genes make me look fat?
10. Why is DNA so negative? Because it's full of A-s!
11. What do you call a fish made of two sodium atoms? 2 Na! (Tuna!)
12. How do genes stay in touch? They cell each other!
13. Why don't skeletons fight each other? They don't have the guts!
14. What did the skeleton say before dinner? Bone appetit!
15. Why did the heart want to join the band? It already knew how to beat!
16. What's the difference between a dog and a marine biologist? One wags a tail, the other tags a whale!
17. Why did the bacteria cross the microscope? To get to the other slide!
18. What's the fastest way to communicate with a fish? Drop it a line!
19. How do you know the ocean is friendly? It waves!
20. Why are fish so smart? Because they live in schools!
21. What do you call a bear with no teeth? A gummy bear!
22. Why don't oysters share? Because they're shellfish!
23. What did one ocean say to the other ocean? Nothing, they just waved!

- 24.** What do you call a microbiologist who's traveled to all 50 states? Staph infection!
- 25.** Why did the biologist break up with the physicist? There was no chemistry!
- 26.** What did the plant say to the bee? Buzz off!
- 27.** Why are mitochondria so optimistic? They're the powerhouse of the cell!
- 28.** What do you call a can't-see-um? Bacteria!
- 29.** Why did the mushroom go to the party? Because he was a fungi!
- 30.** What's a cell's favorite type of music? Hip-hop! (Because of the cell membrane!)
- 31.** Why don't plants ever win races? They're always rooted to the spot!
- 32.** What did the biologist wear on their first date? Designer genes!
- 33.** Why are frogs so happy? They eat whatever bugs them!
- 34.** What do you call a sleeping dinosaur? A dino-snore!
- 35.** Why did the amoeba break up? It just needed to divide!

■ Earth Science Jokes

That Rock!

1. Why are geologists never hungry? They're always taking things for granite!
2. What did the earthquake say when it was done? Sorry, my fault!
3. Why did the tectonic plates break up? It wasn't her fault—it was his!
4. What's a geologist's favorite type of music? Rock and roll!
5. What did the volcano say to the other volcano? I lava you!
6. Why don't mountains get cold in winter? They wear snow caps!
7. What did one volcano say when it had a crush? You make my heart erupt!
8. How do mountains stay warm? They put on their blankets of snow!
9. What's a tornado's favorite game? Twister!
10. How do you cut the ocean in half? With a sea-saw!
11. Why are clouds so lazy? They're always just drifting around!
12. What did the cloud say to the lightning bolt? You're so shocking!
13. Why did the fog go to school? To get a little mist-ucation!
14. What's the difference between weather and climate? You can't weather a tree, but you can climate!
15. How does a hurricane see? With its eye!
16. Why don't clouds ever get jobs? They keep getting mist!
17. What did the crust say to the mantle? Don't take me for granite!
18. Why is the Earth so smart? It has a lot of layers!
19. What's in the middle of the Earth? The letter R!
20. What do you call a rock that never goes to school? A skipping stone!
21. Why did the geologist take his girlfriend to the quarry? He wanted to get a little boulder!
22. What's a geologist's favorite type of candy? Rock candy!
23. Why don't rocks ever get stressed? They take everything for granite!

- 24.** What did the limestone say to the geologist? Don't take me for granite!
- 25.** Why was the sedimentary rock so cheap? It was always on shale!
- 26.** What do you call a periodic table when it's depressed? Sodium sodium sodium sodium Batman!
- 27.** Why did the mineral go to the doctor? It had too much pressure!
- 28.** What's a volcano's favorite song? Lava la vida loca!
- 29.** Why don't earthquakes ever win at poker? They always fold!
- 30.** What did one raindrop say to the other? Two's company, three's a cloud!

■ Space Jokes

That Are Out of This World!

1. How do you organize a space party? You planet!
2. Why didn't the sun go to college? Because it already had a million degrees!
3. What do planets like to read? Comet books!
4. How does the solar system hold up its pants? With an asteroid belt!
5. Why did the astronaut break up with his girlfriend? He needed space!
6. What's an astronaut's favorite key on the keyboard? The space bar!
7. How do astronauts serve dinner? On flying saucers!
8. Why did the astronaut bring a ladder to space? To reach for the stars!
9. Why can't you trust the moon? It's always going through phases!
10. What kind of music do planets listen to? Nep-tunes!
11. How does the moon cut its hair? Eclipse it!
12. Why did the star go to school? To get brighter!
13. What did Mars say to Saturn? Give me a ring sometime!
14. Why is Jupiter so gassy? Too many space beans!
15. What do you call a tick on the moon? A luna-tick!
16. How do you know when the moon is going broke? When it's down to its last quarter!
17. What's a light-year? The same as a regular year, but with fewer calories!
18. Why did the alien refuse to eat the astronaut? It didn't want to catch a constellation!
19. What do you call a crazy spaceman? An astro-nut!
20. What's an astronaut's favorite meal? Launch!
21. Why did the sun go to school? To get brighter!
22. What do you call a comet that won't share? Selfish!
23. Why don't aliens eat clowns? Because they taste funny!

- 24.** What do you call a space magician? A flying sorcerer!
- 25.** Why did the moon skip dinner? It was already full!
- 26.** What's a planet's favorite type of candy? Mars bars!
- 27.** Why don't stars ever get jobs? They're always shooting for something better!
- 28.** What do you call an alien with three eyes? An aliiien!
- 29.** Why did Venus break up with Mars? She needed more space!
- 30.** What's Saturn's favorite song? Ring of Fire!

■ Ocean Science Jokes

Making Waves!

1. Why are fish so smart? Because they live in schools!
2. What did the ocean say to the beach? Nothing, it just waved!
3. Why don't oysters share? Because they're shellfish!
4. What lies at the bottom of the ocean and twitches? A nervous wreck!
5. How do oceans say goodbye? They wave!
6. Where do fish keep their money? In a river bank!
7. What do sea monsters eat? Fish and ships!
8. Why is the ocean always blue? Because the fish go blub blub blub!
9. What do you call a fish that needs help? A suckerfish!
10. Why are dolphins so smart? Because they're always in their porpoise!
11. What do you get when you cross a shark and a snowman? Frostbite!
12. How do shellfish get to the hospital? In a clambulance!
13. What did one tide pool say to the other? Show me your mussels!
14. Why did the sea turtle cross the beach? To get to the other tide!
15. What's the best way to watch a fishing tournament? Live stream!
16. Why are waves so good at sharing? Because they're always passing things along!
17. What did the beach say when the tide came in? Long time no sea!
18. How do you make a wave? Just say sea you later!
19. What do you call a lazy lobster? A slobster!
20. Why don't fish play basketball? They're afraid of the net!
21. What's a shark's favorite sci-fi show? Shark Trek!
22. Why did the octopus beat the shark in a fight? It was well armed!
23. What do you call a fish with no eyes? Fsh!

24. Why don't crabs ever share? Because they're shellfish!

25. What's a whale's favorite game? Swallow the leader!

■ Lab Science Jokes

For Little Scientists!

1. Why do scientists look for clues? Because they're always conducting investigations!
2. What do you call a tooth in a glass of water? A one molar solution!
3. Why did the scientist install a knocker on his door? He wanted to win the No-bell prize!
4. What's a scientist's favorite dog? A Lab!
5. Why did the bacteria cross the microscope? To get to the other slide!
6. What did the scientist say when he found two isotopes of helium? HeHe!
7. Why are test tubes so wise? They're graduated!
8. How do you make a scientist laugh on Saturday? Tell them a joke on Wednesday!
9. What's the difference between a poorly dressed scientist and a well-dressed cat? One wears a lab coat, the other a tabby coat!
10. Why don't scientists trust atoms? Because they make up everything—including their data!
11. What did the biologist wear to impress a date? Designer genes!
12. Why was the math book sad at the science lab? It had too many problems!
13. Why should you never trust an atom in the lab? They make up everything, even the safety reports!
14. What do you call dangerous precipitation? A rain of terror!
15. Why did the scientist disconnect his doorbell? He wanted to win the no-bell prize!
16. What's the fastest way to determine the sex of a chromosome? Pull down its genes!
17. What did one beaker say to the other? You're looking very graduated today!
18. Why are chemists excellent at solving problems? They have all the solutions!
19. What do you call a scientist who studies plants in the lab? A phytosician!
20. Why did the scientist bring a ladder to the lab? To reach high conclusions!
21. What's a lab technician's favorite snack? Experi-mints!
22. Why don't scientists ever panic? They have all the solutions!

- 23.** What did the Bunsen burner say to the beaker? You're so hot!
- 24.** Why was the biology book always happy? It was full of life!
- 25.** What do you call a scientist who's frozen? A Popsicle!

■ Technology Jokes

That Compute!

1. Why was the computer cold? It left its Windows open!
2. What do you get when you cross a computer with an elephant? Lots of memory!
3. Why did the PowerPoint presentation cross the road? To get to the other slide!
4. How does a computer get drunk? It takes screenshots!
5. Why don't robots ever worry? They have nerves of steel!
6. What do you call a computer superhero? A Screen Saver!
7. Why was the robot angry? People kept pushing its buttons!
8. What's a robot's favorite type of music? Heavy metal!
9. Why was the smartphone wearing glasses? It lost its contacts!
10. What do you call a phone that isn't turned on? Dead!
11. Why did the smartphone go to therapy? It had too many issues!
12. How do smartphones stay in shape? They do app-aerobics!
13. Why did the computer keep sneezing? It had a virus!
14. What's a computer's favorite snack? Microchips!
15. Why was the computer so tired? It had too many tabs open!
16. How do trees get online? They log in!
17. Why do programmers prefer dark mode? Because light attracts bugs!
18. What's a programmer's favorite hangout spot? The Foo Bar!
19. Why did the programmer quit? Because they didn't get arrays! (a raise!)
20. How many programmers does it take to change a light bulb? None—that's a hardware problem!
21. What did the computer do at lunchtime? Had a byte!
22. Why don't computers ever get hungry? They're already stuffed with data!
23. What do you call a computer floating in the ocean? A Dell rolling in the deep!

24. Why was the JavaScript developer sad? He didn't get callbacks!

25. What's a computer's least favorite food? Spam!

■ Math & Science Jokes

Squared!

1. Why was six afraid of seven? Because seven eight (ate) nine!
2. What do you call a number that can't stay in one place? A roamin' numeral!
3. Why should you never talk to Pi? Because it'll go on forever!
4. How do you make seven even? Remove the 's'!
5. What's a math teacher's favorite type of tree? Geometry!
6. Why did the obtuse angle go to the beach? Because it was over 90 degrees!
7. What do you call an empty parrot cage? Polygon! (Polly gone!)
8. Why is a circle the smartest shape? It has infinite points!
9. What's a scientist's favorite exercise? Lunges! (Lengths!)
10. Why did the meter stick get promoted? It went the extra mile!
11. What do you call a happy metric unit? A jolly-meter!
12. How do you weigh a planet? With a space scale!
13. What's the speed of dark? A little faster than the speed of light!
14. Why was the equal sign so humble? Because it knew it wasn't greater than or less than anyone else!
15. What do you get when you cross geometry with McDonald's? A plane cheeseburger!
16. Why did the statistician drown? They were below the mean!
17. What's the integral of $(1/\text{cabin}) d(\text{cabin})$? A log cabin!
18. Why do plants hate math? Because it gives them square roots!
19. What do you call a mathematician's bird? A poly-gon!
20. Why was the fraction worried? It was being reduced!

■ General Science Jokes

For Curious Minds!

1. What do you call a scientific experiment that goes wrong? A lesson!
2. Why are scientists always calm? Because they have all the solutions!
3. What did the scientist say when he made a mistake? That's odd!
4. How do scientists freshen their breath? With experi-mints!
5. What did the thermometer say to the Bunsen burner? You make my temperature rise!
6. Why did Ben Franklin's kite get grounded? It had bad conduct!
7. What was Isaac Newton's favorite dessert? Apple pie!
8. Why don't scientists like talking about Albert Einstein? Because he's always relatively speaking!
9. What's the most musical part of a scientist's toolkit? The cymbals! (symbols!)
10. Why did the science book look sad? Because it had too many problems!
11. What do you call an acid with attitude? A-mean-o acid!
12. Why are scientists good at basketball? They know how to experiment with shots!
13. What did one DNA strand say to the other? Do these genes make my butt look big?
14. Why do scientists enjoy working with ammonia? Because it's pretty basic stuff!
15. What's the difference between a cat and a complex sentence? One has claws at the end of its paws, the other has a pause at the end of its clause!
16. Why did the cookie go to the doctor? Because it felt crumbly!
17. What kind of hair does the ocean have? Wavy!
18. Why can't a bicycle stand up by itself? Because it's two-tired!
19. What do you get when you mix a cocker spaniel, a poodle, and a ghost? A cocker-poodle-boo!
20. What did the baby corn say to the mama corn? Where's popcorn?
21. Why are teddy bears never hungry? They're always stuffed!
22. What building has the most stories? The library!
23. What do you call a snowman in summer? A puddle!

- 24.** Why did the scarecrow win an award? Because he was outstanding in his field!
- 25.** What do you call a parade of rabbits hopping backwards? A receding hare-line!
